A VIEW OF OUR YOUNG PECAN ORCHARD

BRED UP PAPER SHELL PECAN TREES

We have them as fine as can be grown. Varieties: Stuart, Success, Schley.

It is a good investment to buy thrifty nursery grown pecan trees. Our grafting stock is selected from heavy bearing trees of the best varieties. Our trees when properly cared for will continue to increase in value, and other crops may be grown to advantage among the trees. **BUY RELIABLE PECAN TREES AND BE A SATISFIED CUSTOMER.**

STUART—One of the best known of all the Pecans. Extremely hardy and a strong grower, heavy bearer; nuts good size, plump and well filled.

SUCCESS: Tree of good sturdy growth and heavy bearer. Nuts plump and of excellent flavor. Thin shell and cracks readily.

SCHLEY—Shell very thin, kernel rich and plump with high flavor. Considered one of the best for eating, but not so hardy as the Stuart and Success.

FRUITS THAT ARE HOME GROWN TASTE BETTER

Fruit trees serve a double purpose. First they provide fresh fruit for your family table. Secondly, their blossoms, foliage and fruits add an ever changing beauty to the appearance to your home grounds.

JAPANESE PERSIMMONS

TANE-NASHI—Large to very large, roundish conical pointed, very smooth. Flesh yellow. Vigorous, prolific, the most desirable market variety.

HYUKUME—Sweet, crisp and meaty. Dark brown flesh, not astringent, good while still hard.

TRYUMPH—Medium size, good quality, ripens from September to December.

TAMOPAN—A Chinese variety oddly marked by constriction about the middle, fruit astringent until fully ripe.

WRITE, TELEPHONE OR CALL AT OUR NURSERY

We are ready to help you make your selection or plan your plantings. SUCCESS with your planting depends upon the quality of Trees, Evergreens, Shurbs, etc., that you buy. You will save time, money and possibly disappointment when we supply your needs.

With each order of nursery stock we send out we will give printed instructions for planting

EVERGREENS

Evergreens are the aristocrats of the home grounds. They are always appropriate for planting on home grounds, in parks, street planting, churches, schools or anywhere that one may want their grounds to be beautiful all the year.

All Evergreens balled and burlaped, which makes them live and grow easily.

BLOCK OF ARBOR-VITAE AND JUNIPERS IN OUR NURSERIES

ARBOR-VITAE AND OTHER CONIFEROUS EVERGREENS

The Coniferous Evergreens retain their foliage throughout the winter. The different colors, Green, Dark Green, Blue Green, Golden, Silvery Blue, give a striking effect in almost any planting. They are valuable in foundation plantings, also as lawn specimen plants, in groups for screen plantings, hedges, etc.
